Home & Commercial Scenarios

One click One cup of Fresh Coffee

Jetinno Grinder with 64mm Europe Flat Burr and Jetinno Espresso brewer with stable 9 bar pressure, can turn beans into tasty coffee in about 30s.

10.1 " Touch Screen

One screen for both ads and ordering , easy for customers, operators to use.

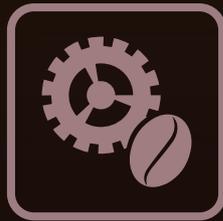

Height-adjustable Double SPOUTS, one click two espresso

Spout height is adjustable, 80-115mm. Two spouts offer you two cups of espresso with one click.

10+ Drinks

For Home, OCS and HORECA

1xBean Hopper
(1.5kg coffee bean)

1xJetinno Grinder

1xES Brewer
(14g or 20g)

* Patent no:2018104114067

3x1.5L Canister

2xMixer

1xWaste bucket
(50 cakes)

Vending system, friendly interface

New and upgraded, more clear content presentation, more user-friendly operation

Black coffee +Milk coffee +Instant

More than 10 kinds of drinks, customize the drink formula

Compact Design

Compact design, for home, OCS and HoReCa; New appearance upgrade, more suitable for commercial environment demand.

Layer Management

The upper and lower separation space management of the powder production warehouse and the waste residue waste water warehouse is convenient to set the authority of different personnel to manage the coffee machine and improve the management efficiency.

Optimized internal structure

Add the top clamshell and manual drainage, optimize the mixer and dehumidification system, solve the problem of caking and residual liquid, improve the speed of operation and maintenance.

Every detail for a good cup of coffee

Visible Bean Hopper

See the process of making coffee and the real experience of freshly ground coffee.

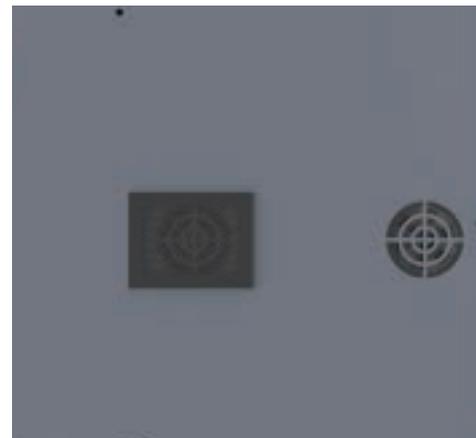

Cabinet top clamshell design

The top of the canister can be opened for quick filling or replacement of powder box.

Manual drain valve

Fast discharge of boiler water, improve the speed of operation and maintenance.

Dehumidifying fan

Solve the problem of moisture and powder caking in the canister.

Easy Use & Maintenance

Real-time Alert

When malfunctions happen, the console will push a notice.

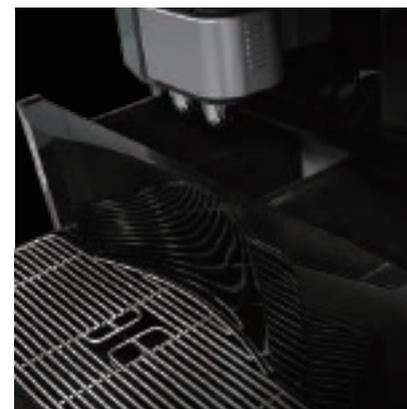

Detachable Design

Machine's key components apply detachable design, convenient to detach and clean for deep cleaning, easy maintenance.

Automatic cleaning system

The machine is fully automatic cleaning, and the production modules are cleaned separately at regular intervals to prevent the residual liquid from affecting the taste of the drinks.

Drip tray/waste bucket

Easy to remove and place, improve operation and maintenance efficiency; Drip tray full detection function, screen and background alarm, convenient for the staff to deal with.

Jetinno SaaS Management

Support PC and mobile

Remote Control

Support remote control of recipes adjustment, machine setting, UI ads and video upload, machine system upgrade.

Malfunction Alert

Real time machine malfunction alert, can push notice to machine operator.

Comprehensive Data

Location deployment data, drink sale data, payment data, all these data statistics help operator better in machine operation and coffee vending business.

Modular Design

The combination of modules has been fully considered in the design stage, and the beverage production modules such as coffee extraction module and instant module are flexibly combined into one machine to facilitate customers to put into different scenarios to meet user beverage needs.

Hot water system

- 2700W heating power, continuous and stable water temperature guaranteed.
- Sweden Backerths 700ml stainless high-pressure boiler, max 25bar tolerance.
- USA EMERSON professional STB temperature control protective switch.
- Japan OMRON temperature/pressure sensor, real-time monitoring.
- Italy ULKA high -pressure electromagnetic pump, provides 9Bar extraction pressure.
- Other valve joints spare parts, flow meter are all Italy and German made.

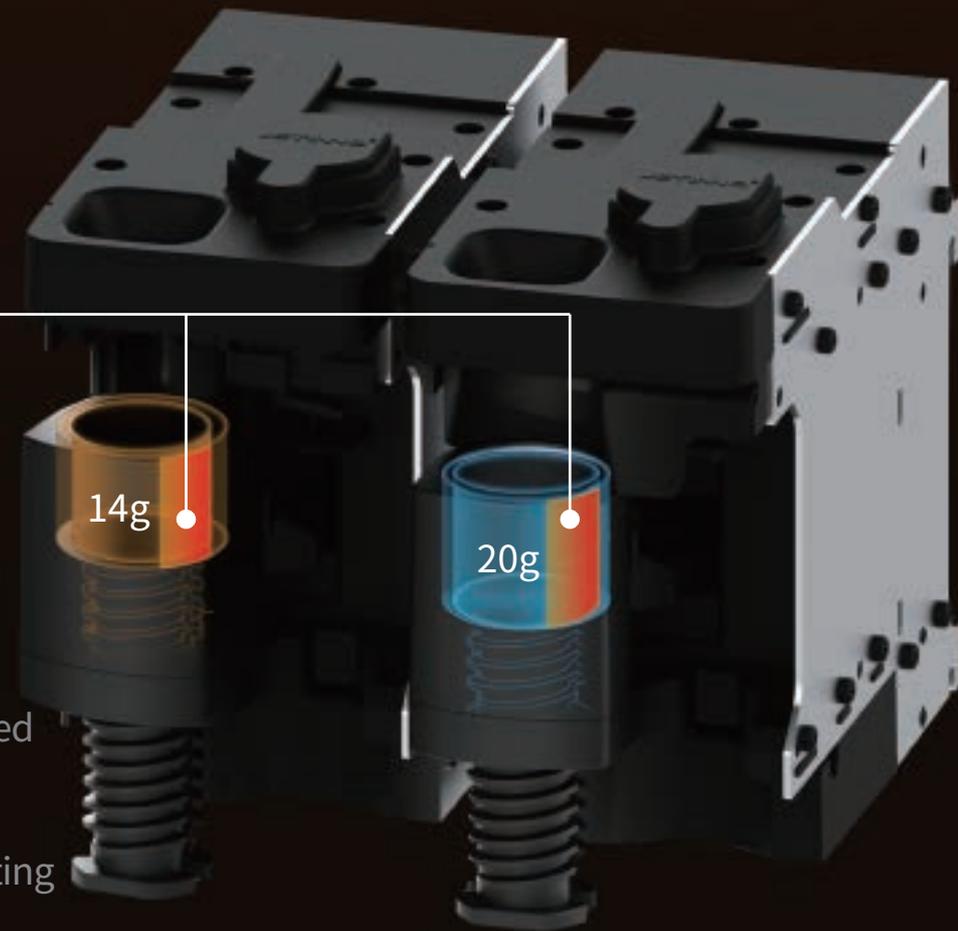

Jetinno grinder

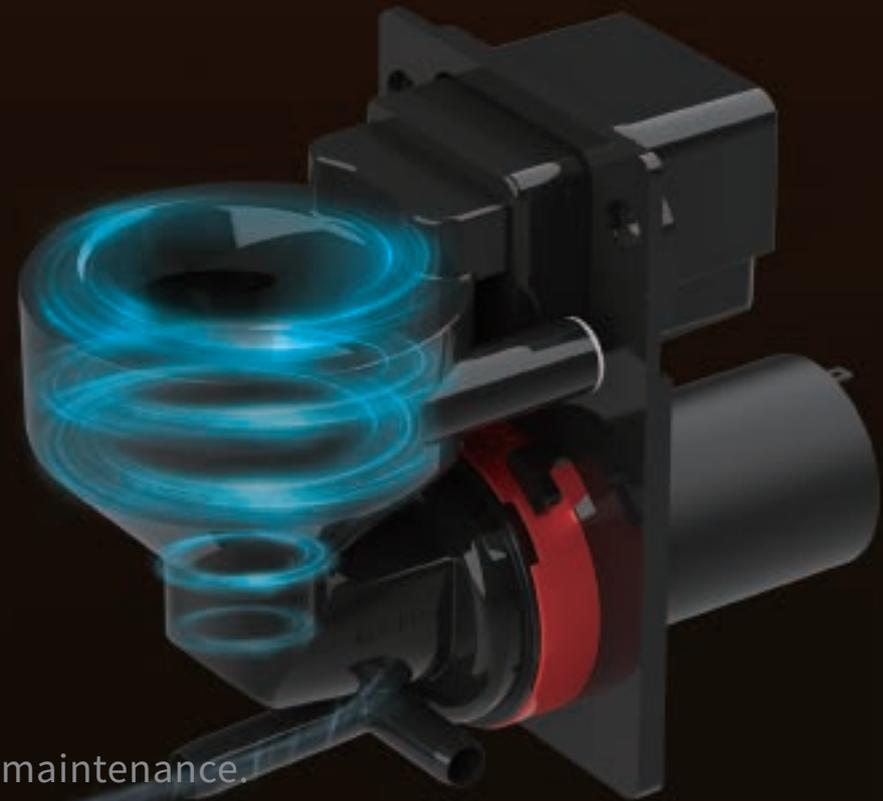

- Patented tech innovated by Jetinno.
- European well-known grinding blade brand.
- 64mm Flat burr grinder, special made steel, high impact tolerance.
- Grinder lifetime: 62500 times(can grind approx 500kg coffee bean).
- Adjustable coffee ground fineness, easy to use.

PTC
Heater

Professional coffee brewing system

- Removable brewer module design, easy for cleaning.
- 9bar 92°C Espresso extraction, compatible with low-pressure brewing.
- Jetinno PTC international patent, European time-honored brand applies the same type.
- Pre-infusion function to have saturated extraction.
- PTC heaters in brewing chambers, provide constant heating to solve low-temp of first cup.
- Built with 14g and 20g two brewing chambers, for different recipes.
- Detachable brewing chamber design, easy for deep-cleaning.
- Auto decompression function to discharge residual coffee liquid.

High speed stirring system

- Patented tech innovated by Jetinno.
- Detachable stirring chamber, easy for cleaning and maintenance.
- Up to 20000rpm stirring speed, rapid sufficient dissolution.
- Adjustable stirring speed for different recipes.(milk foam requires high speed, instant coffee and tea drinks require low speed).

Multi-function main board

- Designed and developed by Jetinno.
- 8 core Cortex A7 CPU, 2GHz.
- Multiple network ports for network connection.
- Multiple displaying format ports and dual screen displaying.
- Up to 10-way ports expansion.
- Android & Linux.

IO board

- Designed and developed by Jetinno.
- Quick response.
- Fast protection for malfunctioned unit.
- Precisely control all module units.
- Multiple ports expansion, can independently support 25-way control unit.
- Support various types of sensors, including temperature, humidity, flow and pressure.

The logo for OMRON, consisting of the word "OMRON" in a bold, black, sans-serif font.

Japan OMORON sensors

The logo for EMERSON, featuring a stylized diamond-shaped icon with diagonal lines above the word "EMERSON" in a bold, black, sans-serif font.

USA EMERSON switch

The logo for ULKA, consisting of the letters "U L K A" in a bold, black, sans-serif font, with spaces between the letters.

Name	Item
Ports	Open underlying control serial port protocol, support customer self-developed APP.
	Open network interface(TCP/IP), support customer self-developed server.
	Open RESTful interface, support customer online store and data system.
OS	APP application layer customizable development (Linux, Android).

Product: coffee machine cleaner

Use: used for coffee machine brewer cleaning

Details: 2g/pill, 100 pills/can, 12 cans/case

Product: coffee machine boiler cleaner

Use: used for coffee machine boiler cleaning

Ratio: 200g powder with 3.9L water

Details: 1kg/bottle, 6 bottles/case

Product: towel

Use: used for coffee machine cleaning and maintenance

Details : general use

Product: cleaning brush

Use: used for coffee machine cleaning and maintenance

Details : general use
